

# **Product Information**

Leibovitz's L-15 Medium, w/o L-Glutamine Cat. No. L15-XA (500 ml)

#### **General Information**

Leibovitz's L-15 Medium was originally formulated for use in  $CO_2$ -free systems and therefore does not contain sodium bicarbonate. Instead, the medium is buffered by salts, free base amino acids, and galactose substituted for glucose to help maintain physiological pH control.

Leibovitz L-15 Medium supports existing cell lines, such as HEp-2 and LLC-MK2, as well as primary embryonic and primary human tissue.

Reconstitution: Usually the medium is supplemented with 0.3 g/l L-Glutamine (2 mM).
