

Anti-HANTA Puumala mab 10G11

Catalogue number	Package size
0102005501	100 µg
0102005503	1 mg

For research use only.

Product:	monoclonal antibody
Clone:	10G11
Host:	mouse
Isotype:	IgG1 _k
Immunogen:	Recombinant HANTA Puumala virus protein
Specificity:	HANTA Puumala strain
Purification:	purified by affinity chromatography
Purity:	> 95% by SDS-PAGE
Solution:	PBS pH 7.4 without additives
Storage:	at -20 °C (repeated thawing and freezing should be avoided)
Applications:	ELISA, Western Blot
Dilution:	1 µg/ml in Western Blot
Reactivity:	HANTA virus protein strain Puumala
